Belgian's Queen Scared by a Fire-Cracker.

National Associated Press to the Star.

ST. PETERSBURG, March 3.—As General Melikoff, the recently appointed military governor of St. Petersburg, was passing out of the Winter Palace this afternoon, an unknown young man stepped up immediately in front of him, and fired a pistol at him, point blank range, and then fled. The would-be assassin was at once pursued and arrested. General Melikoff was unhurt. Great excitement exists throughout the city at this renewed attempt to assassinate a member of the government. Information of the event was communicated to the czar, who grimly replied, "that it was fortunate the nihilists had chosen some other target to practice on than himself."

EXCITEMENT IN BELGIUM.

BRUSSELS, March 3.—Some transient excitement was created here last night by the act of a practical joker who exploded a loud fire cracker near the carriage of the Queen of the Belgians as she was returning from the theater. For a short time it was supposed that the Queen had been fired at, but on investigation of the circumstances at once proved the absurdity of the rumor.

WILL COME UP AGAIN.

National Associated Press to the Star.
WASHINGTON, D. C., March 3.—The Senate in executive session to-day rejected the nomination of Lieut. W. S. Schenck, of the United States Marine Corps, who was nominated for Assistant Quartermaster of the Marine Corps with rank of Captain. The objection to him was that the nomination would promote him over the heads of thirty other officers. He was rejected by a vote of 15 to 25.

A motion to reconsider was entered, and the case will come up again. The Naval Committee has reported twice against this nomination.

THE SILVER QUESTION.

At the Cabinet meeting the importance of the silver question was discussed at length, but without a definite conclusion. Secretary Sherman called the attention of the Cabinet to the fact that so many silver dollars were being coined and so few comparatively getting into actual circulation, that the treasury silver reserve is falling so rapidly and the gold reserve is going down so rapidly, that he expressed a fear that under the existing circumstances the United States might be forced into a single silver standard.

The silver certificates are greatly in his way. The people to whom silver is paid will demand certificates immediately, and parties in San Francisco and the West, tired of transporting gold to New York, will convert it into silver certificates and mail them. The expense of the gold transportation is thus thrown upon the Department.

WARNING TO INVADERS.

The question of the squatter invasion of the Indian Territory was discussed by the

Cabinet. The information received by the Interior Department indicates that the movement is very strong and very well organized. The question came up as to how far the United States troops could go in making arrests.

It was decided that they should be first called upon by some officer of the Indian Department before arresting a would-be squatter. The call to partake of the nature of a journal demand for troops under the President's proclamation. A large meeting is to be held at Kansas City to-day in agitation of this raid on the Territory.

The Cabinet decided that the United States civil officers of that city should be directed to appear before the meeting and inform those taking part in it that the movement was against the law and against the President's proclamation, and that it would be resisted. Instructions were sent by telegraph in accordance with the above decision.

How Many Strings Cole Has to His Bow.

WHAT COLE COLE CONTROLS.

Special to the Star.
LOUISVILLE, March 3.—A Post and News special from Nashville says: Col. E. W. Cole, President, and the Directors of the Nashville, Chattanooga & St. Louis Railway left yesterday afternoon for Louisville on business connected with the sale of the St. Louis & Southeastern and Owensboro & Nashville Railroads.

They are expected to return to-day. Developments of the last few days point strongly to the fact that Col. Cole will yet master the railroad situation, become head of a pet scheme from St. Louis to the sea, and seriously cripple the Louisville, Nashville & Great Southern system.

He has shrewdly had the stockholders of the Nashville & Chattanooga Road to order the sale of the St. Louis & Southeastern and Owensboro & Nashville Roads, which sale is to be managed by the directors of the Nashville & Chattanooga Road, Cole's friends, who will sell to him and his coadjutors.

The Louisville & Nashville managers, controlling the majority of the Nashville & Chattanooga stock, consented to this sale.

A majority of stock of the Nashville & Decatur Road is held in Tennessee, and when the present lease expires Cole can obtain this road if he so desires.

It is secret here that Cole and his friends, Nashville men, are buying Memphis & Charleston Road stock.

Cole controls the Western & Atlantic, and so his line is complete, and not over a hundred miles longer than at first contemplated.

This is not all. Cole has been offered the Presidency of the Cincinnati Southern, and he is in close alliance with Messrs. Wilson and McGhee, of the East Tennessee, Virginia & Georgia Road.

WHAT COULD WILL GRAB.

Ute Reservation Problem Solved at Last.

Some Civilized Chippewas Visit Chicago.

National Associated Press to the Star.

WASHINGTON, March 3.—The questions at issue between the Government and the Utes relative to the latter moving out of the State of Colorado, have been settled. The Southern Utes have agreed with Secretary Schurz to cede their reservations in consideration of back annuities being settled and they indemnified for their land. The place selected for their new home is a strip of land bordering on the La Platte River, in New Mexico, within ten miles of the Navajo Reservation.

The White River Utes, Ojaya and the chiefs of the Uncompagres will have a final interview with the Secretary. These latter Indians have not agreed that the White River Utes shall remove to the Uintah reservation in Utah upon land to be allotted them there, Ojaya and the Uncompagres to be settled in severalty on land on the Grand River in Utah, just outside the borders of Colorado.

The cession of the Ute Reservation is agreed upon by the Indians, and as soon as the chiefs can get back to their tribes after the negotiations are finished here, and a formal ratification of the tribes be had, the land will be opened up to exploration and settlement. The troops from Fort Garland and other points in that vicinity will be ordered into the reservation as soon as the chiefs now here get back.

Their services will be needed to protect the Indians as well as the whites. A bill providing for a commission to settle the Indians upon the land, provided for them will be prepared to-day and forced to a speedy action by Congress.

Street Railroad Fight.

Charles Kilgore and others against the St. Louis & Sedamsville Street Railroad Company. This is an application in the Common Pleas for an injunction to restrain the extension of the St. Louis & Sedamsville Street Railroad, on the grounds that it is not the construction of a new road, and should therefore be let to the highest bidder for carrying passengers.

Second. That the Common Council did not determine through what streets the cars should pass, but left it to the option of the Company. Third. That the application for the grant was not advertised. Fourth. That the majority of the property owners along the proposed line did not consent to the construction of the road, and, lastly, that, contrary to law, the grant was for more than a period of twenty-five years.

The morning was taken up in reading affidavits of parties to the question of the consent of property owners being obtained.
